Additional Information:

Disclaimer:

Please note that when we winterize a motor, we remove all plugs and hoses and place the parts in a bag inside the vessel.

If you request, that after draining and winterizing the engine, that the plugs and hoses are re-installed and your vessel is put in the water this winter for any reason there is a possibility that the block could freeze and crack. In the event that the above scenario occurs and the engine freezes and is damaged you are agreeing to hold Pine Knot Marina LLC Harmless by signing below as requested.

NOTE: To replace the plugs and hoses will be invoiced at our hourly labor rate
